| RELEVANT PROFESSIONAL EXPERIENCE

TEKsystems Global Services - *Junior Developer*

05/2022 - 04/2023

- Created front-end architecture for responsive and accessible e-commerce platforms using React, JavaScript, HTML, and CSS
- Produced wireframes and mockups in Figma and Adobe XD for development of UI/UX design
- Employed Spring Boot for development of REST APIs for e-commerce projects, and utilized SQL for storing application data
- Used Selenium, JUnit, TestNG, and Mockito to create and execute automated test suites for a Java-based e-commerce platform
- Collaborated daily with agile team to develop, refine, and implement user stories that improved overall product quality
- Applied test-driven development techniques to guide the development of an e-commerce platform
- Implemented SOLID and OOP best practices to design modular and scalable codebases

American University - *Program Coordinator*

12/2016 - 01/2022

- Maintained and updated the AU Office of Merit Awards website using the CommonSpot CMS; ensured that all information was accurate and up-to-date
- Managed the office's front desk staff and administrative functions, including scheduling and logistics, reporting, events, and marketing activities

JBS International, Inc. - *Senior Bilingual Information Specialist*

03/2011 - 12/2016

- Ensured the seamless function of NIDA's Drupal e-commerce website by performing weekly updates, fixing bugs, checking for Section 508 compliance, and conducting thorough QA checks; used JIRA to manage work in progress
- Facilitated communication across stakeholders and provided expertise throughout website redesign, relaunch period
- Responded to daily English and Spanish customer phone and email requests for publications, information, and referrals

| ADDITIONAL EXPERIENCE

DREAM Financial Academy - *Web Designer*

05/2023 - Present (volunteer)

- Redesign of DREAM Financial Academy website, optimizing it for SEO and UX
- Compile analyses of user-experience and site performance data
